NEWS RELEASE

Tempus Receives IVDR Certification for xR RNA Sequencing for Solid Tumor Profiling

2026-10-26

CHICAGO--(BUSINESS WIRE)-- Tempus AI, Inc. (NASDAQ: TEM) today announced that its xR assay has received certification under the European Union's In Vitro Diagnostic Regulation (IVDR) as a Class C in vitro diagnostic device. The certification covers Tempus' quality management system for "next-generation sequencing devices for cancer genomic profiling to support clinical management."

xR detects gene rearrangements and specific splice variants in solid tumor tissue to support clinical management. A **published study** demonstrated that combining Tempus RNA and DNA testing increases detection of clinically actionable gene fusions compared with DNA testing alone.

IVDR certification supports continued access to xR in the EU beyond 2028, the transition deadline for eligible legacy Class C devices, and provides biopharma partners with an IVDR-certified testing platform to support clinical studies.

"Securing our European IVDR certification for xR reinforces our commitment to meeting the highest regulatory standards globally," said Lauren Silvis, SVP of External Affairs at Tempus. "This achievement establishes a strong regulatory foundation in Europe as we work to expand access to our advanced RNA sequencing tools for healthcare providers, biopharma partners and cancer patients across the region."

About Tempus

Tempus is a technology company advancing precision medicine through the practical application of artificial intelligence in healthcare. With one of the world's largest libraries of multimodal data, and an operating system to make that data accessible and useful, Tempus provides AI-enabled precision medicine solutions to physicians to deliver personalized patient care and in parallel facilitates discovery, development and delivery of optimal

therapeutics. The goal is for each patient to benefit from the treatment of others who came before by providing physicians with tools that learn as the company gathers more data. For more information, visit **tempus.com**.

Forward Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended, about Tempus and Tempus' industry that involve substantial risks and uncertainties. All statements other than statements of historical facts contained in this press release are forward-looking statements, including, but not limited to, statements regarding the expected outcomes and benefits of Tempus xR and IVDR certification. In some cases, you can identify forward-looking statements because they contain words such as "anticipate," "believe," "contemplate," "continue," "could," "estimate," "expect," "going to," "intend," "may," "plan," "potential," "predict," "project," "should," "target," "will," or "would" or the negative of these words or other similar terms or expressions. Tempus cautions you that the foregoing may not include all of the forward-looking statements made in this press release.

You should not rely on forward-looking statements as predictions of future events. Tempus has based the forward-looking statements contained in this press release primarily on its current expectations and projections about future events and trends that it believes may affect Tempus' business, financial condition, results of operations and prospects. These forward-looking statements are subject to risks and uncertainties related to: Tempus' financial performance; the ability to attract and retain customers and partners; managing Tempus' growth and future expenses; competition and new market entrants; compliance with new laws, regulations and executive actions, including any evolving regulations in the artificial intelligence space; the ability to maintain, protect and enhance Tempus' intellectual property; the ability to attract and retain qualified team members and key personnel; the ability to repay or refinance outstanding debt, or to access additional financing; future acquisitions, divestitures or investments; the potential adverse impact of climate change, natural disasters, health epidemics, macroeconomic conditions, and war or other armed conflict, as well as risks, uncertainties, and other factors described in the section titled "Risk Factors" in Tempus' Annual Report on Form 10-K for the year ended December 31, 2025, filed with the Securities and Exchange Commission ("SEC") on February 24, 2026, as well as in other filings Tempus may make with the SEC in the future. In addition, any forward-looking statements contained in this press release are based on assumptions that Tempus believes to be reasonable as of this date. Tempus undertakes no obligation to update any forward-looking statements to reflect events or circumstances after the date of this press release or to reflect new information or the occurrence of unanticipated events, except as required by law.
